

13th Kindergarten of Rethymno

Our town is Rethymno. It's located in the north east of Crete in Greece. It was built in 1550 B.C and it was a might Minoan town with its own coin with 2 dolphins.

These dolphins are also our town symbol.

When the Venetians arrived, they built a big castle named Fortezza.

Then the Ottomans came and stayed until 1913. During the Second World War our town was bombed.

In our days many tourists visit Rethymno. They walk around the colorful streets in the old town, the old harbor with lighthouse and go up the Fortezza castle.

the

They swim in our beautiful and long, sandy beach and have lunch in one of the many restaurants we have.

Every summer the caretta caretta turtles come to our beach to lay their eggs. We take care of their nest until the little turtles come out.

Every winter, we celebrate Halloween (we call it “apokria”). We dance, sing and have a big carnival street parade (more than 10.000 participants).

We love Rethymno, our beautiful, little and sunny town.

When will you come to meet you?
